

AMENDMENTS TO THE DRAWINGS:

The attached sheet of drawings includes changes to FIG. 20. The attached sheet of drawings replaces the original sheet including FIGs. 19 and 20. The reference numeral 291C has been added to FIG. 20.

REMARKS:

Claim 49 is currently pending. Claims 1-48 have been canceled without prejudice or disclaimer as to their subject matter. The Examiner has indicated that claim 49 sets forth allowable subject matter.

A. Claim 49:

The Examiner has indicated that claim 49 sets forth allowable subject matter. Also, the Examiner has objected to claim 49 as being dependent upon a rejected base claim, and has noted that claim 49 would be allowable if rewritten in independent form including the limitations of the base claim and any intervening claims.

Claim 49 has been amended herein in a manner intended to place claim 49 in condition for allowance.

Accordingly, in view of the above, Applicants respectfully submit that this objection to claim 49 should be withdrawn.

B. Claims 45 and 47:

- * The Examiner has rejected claims 45 and 47 under the **first** paragraph of 35 U.S.C. §112 as failing to comply with the written description requirement.
- * The Examiner has rejected claims 45 and 47 under the **second** paragraph of 35 U.S.C. §112 as being indefinite.

Applicants respectfully submit that these rejections of claims 45 and 47 are moot and should be withdrawn, because claims 45 and 47 have been canceled herein without prejudice or disclaimer as to their subject matter.

The specification (page 5) and Figure 20 have been amended herein to include the reference numeral 291C.

In the specification of the subject application, “base of the bearing member 291A” is discussed (please see pages 4 and 5). Figure 20 shows bearing member 291A and base 291C. Base 291C is the base of the bearing member 291A.

The specification states the following: "Thus, it is possible to prevent gas leakage between the cover and the support member by carrying out sufficient sealing with the inner peripheral end surface of the cover without forming any sealing surfaces on a base of the bearing" (page 105).

Accordingly, in view of the above, Applicants respectfully submit that these rejections of claims 45 and 47 should be withdrawn.

C. Claims 46 and 48:

- * The Examiner has rejected claims 46 and 48 under the **first** paragraph of 35 U.S.C. §112 as failing to comply with the written description requirement.

- * The Examiner has rejected claims 46 and 48 under the **second** paragraph of 35 U.S.C. §112 as indefinite.

Applicants respectfully submit that these rejections of claims 46 and 48 are moot and should be withdrawn, because claims 46 and 48 have been canceled herein without prejudice or disclaimer as to their subject matter.
